CBSE/SE/DIR/CSL/2026

20.03.2026

Circular No: Skill-13/2026

Heads of all institutions affiliated to CBSE

Subject: Guidelines for Establishment of 'Composite Skill Labs' in CBSE schools

Dear Principal,

This is with reference to CBSE Circular No. Skill-75/2024 dated 23.08.2024 regarding setting up of Composite Skill Labs in CBSE schools in alignment with the National Education Policy (NEP) 2020 and the National Curriculum Framework for School Education (NCF-SE) 2023.

As envisaged in the National Education Policy (NEP) 2020 and the National Curriculum Framework for School Education (NCF-SE) 2023, skill/vocational education has become an integral and mandatory component of school education. This is aimed to augment the academic learning through the development of practical competencies and skills among students.

To support this pedagogical shift, it is essential for schools to create enabling environments that facilitate hands-on learning. Composite Skill Labs, thus, serve as a critical infrastructure to support meaningful skill development and bridge the gap between conceptual understanding and practical application. The focus should be on ensuring accessibility, safety, and adaptability of the space to support hands-on, activity-based learning across skill sectors.

Through the above-mentioned circular, the schools were advised to set up either one Composite Skill Lab of 600 sq. ft. area for classes VI-XII, or two separate labs of 400 sq. ft. area each, one for classes VI-X and the other for classes XI-XII, as per the the following timeline:

- For the schools seeking fresh affiliation with CBSE, a Composite Skill Lab with all necessary equipments and machinery is a mandatory requirement for all schools seeking fresh affiliation with CBSE.
- Schools already affiliated with CBSE must establish a Composite Skill Lab with all necessary equipments and machinery, within a period of three years from the date of the above-mentioned circular (i.e. by 22nd August 2027).

The Board has also developed comprehensive guidelines for establishment and effective operationalization of Composite Skill Labs in schools. The list of tools and equipments mentioned in these guidelines are suggestive and may be adopted based on school's readiness and requirements. This guidelines booklet which includes infrastructure requirements, tool specifications, safety norms, and implementation plan, is available on the CBSE academic website (on the Skill Education webpage) and can also be directly accessed through the below mentioned link:

https://cbseacademic.nic.in/web_material/skilledu/comp_skill_lab.pdf

Schools are **advised to take all necessary steps for the timely establishment and effective operationalization** of Composite Skill Labs to support the implementation of Skill/Vocational Education.
